

Hoffman Inspects Parks In Interest Of Reorestation

MONTGOMERY—The Alabama State Park System recently had an official visitor in the person of Mr. J. M. Hoffman, District Officer of the U. S. National Park System. Mr. Hoffman's purpose was to inspect the various State parks upon which the Federal Government contemplates to expend funds under the President's reforestation program.

During his tour, Mr. Hoffman was accompanied by Colonel P. S. Bunker, State Forester, who is also Director of State Parks. Special attention was devoted to the Geneva State Park, a tract of some three thousand two hundred acres, upon which the central camp of the park improvement work will be located. Mr. Hoffman expressed himself as much gratified with the possibilities of this area, and predicted that to insure the development of the State Park will be one of the most popular places of resort in the South.

Mr. and Mrs. Milton O'Neal of Troy visited Elba relatives during the week-end.

Mr. and Mrs. E. H. Crumpton spent Wednesday in Montgomery on business.

Mrs. William Goff and Mrs. Glenn Collins of Enterprise were guests of Mrs. T. W. Paschal on Friday.

Mr. and Mrs. Otto Rowe and Mrs. M. V. Venable of Montgomery, Harper and Fred Harper, Jr., spent the Fourth in Pensacola, Fla.

Mrs. Fred Harper and children are spending the week in New Brighton with relatives.

PRESIDENT ROOSEVELT Has Done This For Alabamians

- 1.—Gave 10 cent option.
- 2.—Developed small home owners.
- 3.—Revived the shoe business.
- 4.—Furnished work for unemployed.
- 5.—Guaranteed bank deposits.
- 6.—Stabilized wages.
- 7.—Given farm mortgage relief.
- 8.—Given us \$8,000,000 for road building.

President Roosevelt Asks Alabamians To REPEL THE 18TH AMENDMENT

Will You Vote "Yes" On July 18th

Respectfully,
A. M. Tunstall, Chairman,
Campaign Committee to Repeal and Repeal
Montgomery, Alabama

LETTER FROM MR. SPURLIN

July 3, 1935.
Dear Editor and Readers:—

Am with my brother, Willie, at our old home place, Camp Sal, Saturday, July 1st, to a family reunion known as the Spurlin reunion. Ten of the fourteen brothers and sisters were present. There were sixteen in all, nine boys and seven girls, but two of the girls were in infancy. Of the fourteen, the youngest was four years old, and the oldest 64 on December 21. We have been wonderfully happy and successful in this reunion. It is not surprising that in July, 1934, and anyone wishing to spend the day with us will be welcomed.

The drought has been broken and crops are looking much better. But farmers are beginning to fear that too much rain now will cause the boll weevil to ruin cotton. The difference in them and the government destroying it is that the government would not let the weevil take it without permission, and the government with permission takes it.

Mr. and Mrs. Wiley Blair spent Sunday in Andalusia.

Mrs. Chester Cox of Mecon, Ga., was the guest of Mrs. P. G. Mathis on Sunday.

Mr. and Mrs. J. E. Morgan of Enterprise with Sunday in Elba.

Mr. and Mrs. Corrie Bryant.

Mrs. Fred Harper and children are spending the week in New Brighton with relatives.

THE ELBA CLIPPER

FARMER JONES AND HIS COW PEN

BY W. M. BRUNSON

All the farmers out in our section are preparing to destroy from twenty-five to forty per cent of their crops. They are trying to destroy all of mine if the Government will pay me anything at all like a possible price for it. I am mighty glad to learn that there isn't a farmer in our community who is not converting wholeheartedly in this movement. If every community can and will do as well as ours, there will certainly be a plenty of cotton destroyed. The price will naturally go down, and we will all profit by it. I guess there will be some folks who will try to be stubborn or smart, but the rest of their part, but our community is going over one hundred per cent.

One of the questions we farmers are going to ask ourselves when we prepare to plow up the cotton is, "What can we do for the world where we plow up the cotton that will be profitable?" In my opinion, the answer would be to use the most logical thing to plant. I would suggest that you take a good look at the world, and even with the ground and then rip the roots up with a middle tractor, then let it in the furrow with a six-inch shovel and plant your corn. This will give you two rows of peanuts where you had one row. The corn will be about twelve inches apart. If you will harrow them, you will have a good crop of peanuts. I would suggest that you take a good look at the world, and even with the ground and then rip the roots up with a middle tractor, then let it in the furrow with a six-inch shovel and plant your corn. Wallace Changes Speed Action In Cotton Acres

Administrators estimated that more than 10,500,000 acres have been offered by farmers and that about 1,000,000 individual producers have signed contracts. The first checks to producers covering rewards for destroying part of the crop are not likely to be issued until next week, they said. They estimated that approximately \$100,000,000 will be distributed in cash payments to growers.

Man And Wife Beaten To Death And Buried

COLUMBUS, Miss., July 15.—The bodies of Mr. and Mrs. Hugh Crosby—their skulls crushed and their heads wrapped in sacks—were found Friday in a shallow grave near their farm home.

Authorities said they would question a negro farm hand who recently left the place. They withheld the negro's name and admitted they had no tangible clues to his whereabouts.

The couple, prominent in Mississippi and Alabama, had been missing about three weeks.

Hugh Crosby, 27, was the son of W. S. Crosby, head of the extension division of the University of Alabama. His wife, Irena, was 23 years old.

When the crude graves were found and the bodies disinterred, Mrs. Crosby was attired in only

her lingerie. The husband had on only trousers and a jumper. The skulls had been crushed. The heads were wrapped in sacks. The bodies were lying side by side.

Police expressed belief their assailant used a heavy instrument with which to kill them and wrapped the heads in sacks to prevent leaving a bloody trail.

Officers said the bodies apparently were dragged from the home to the spot, about 1,000 feet away, where they were found. As far

A coroner's jury summoned by Magistrate H. A. Moody returned a verdict that the couple came to their deaths by some blunt instruments in the hands of an unknown party.

Police said the negro they desire to question left the Crosby home in Crosby's automobile on June 23. Neighbors thought he was sent on an errand, they said.

The bodies were taken to Tusculoosa for funeral services this af-

The graves were located on the edge of a cotton field. Searchers found a spot where dirt had caved in. After digging about three feet, the party found Crosby's coat. Six inches deep, the bodies were also discovered.

The Crosbys had been living on the farm about two years. It is the property of Mrs. Crosby's father. Mrs. Crosby's home was at Tyflee, Alabama.

**Farmers' Week Set
August 29, 30, 31**

AUBURN, Ala.—Farmers' Week, annual outing and short course for farm people of Alabama held annually here at the Alabama Polytechnic Institute, has been postponed from July 25-26-27 to August 29-30-31, according to announcement by Dr. L. N. Dunean, director of the Extension Service.

The postponement became necessary because of the intensive work now being done by county agents

and leading farmers in the cotton acreage reduction campaign. "We feel that we can have a much better meeting of farm people if it is postponed until some time after the acreage reduction program has been completed," Dr. Duncan said.

At the same time, Col. J. Litt Edwards of Selma, president of the Alabama Farm Bureau Federation, announced that the annual meeting of the Farm Bureau will also be postponed and held during farmers' week. Likewise, the meeting
